

**Linus Berg** Backend Java and PHP Developer [City, State] [Email Address] | [Phone Number] | [LinkedIn Profile] | [GitHub Profile]

---

## Summary

A seasoned Backend Developer with 15 years of extensive experience in developing robust, scalable, and efficient server-side applications. Proficient in Java and PHP, with a solid background in database management and API development. Known for solving complex problems and delivering high-quality code in a timely manner.

---

## Technical Skills

- **Programming Languages:** Java, PHP, Python, SQL
  - **Frameworks:** Spring Boot, Hibernate, Laravel, Symfony
  - **Databases:** MySQL, PostgreSQL, MongoDB, Oracle
  - **Version Control:** Git, GitHub, Bitbucket
  - **API Development:** RESTful, SOAP
  - **Web Servers:** Apache, Nginx
  - **Build Tools:** Maven, Gradle, Jenkins
  - **Containerization:** Docker, Kubernetes
  - **Other Tools:** Jira, Confluence, Postman
- 

## Professional Experience

### Senior Backend Developer

**ABC Tech Solutions**, [City, State]

*January 2015 – Present*

- Led the backend development team in designing and implementing scalable server-side applications using Java and Spring Boot.
- Developed RESTful APIs to support front-end and mobile application functionality.
- Collaborated with front-end developers and system architects to integrate new features and optimize performance.
- Conducted code reviews, provided technical mentorship, and ensured adherence to coding standards.
- Implemented continuous integration and continuous deployment (CI/CD) pipelines using Jenkins and Docker.

### Backend Developer

**XYZ Web Services**, [City, State]

*June 2010 – December 2014*

- Developed and maintained server-side logic and database structures using PHP and Laravel.
- Optimized application performance and ensured scalability to handle high traffic loads.
- Integrated third-party services and APIs to extend application capabilities.
- Implemented security best practices to protect data and prevent vulnerabilities.
- Provided ongoing maintenance and support for legacy systems and applications.

## Software Developer

### Creative Web Solutions, [City, State]

*January 2008 – May 2010*

- Developed web applications and backend services using Java and PHP.
- Assisted in the migration of monolithic applications to microservices architecture.
- Maintained and optimized existing applications to improve performance and reliability.
- Collaborated with cross-functional teams to define project requirements and deliver solutions on time.

---

## Education

### Bachelor of Science in Computer Science

[University Name], [City, State]

*Graduated: 2007*

---

## Certifications

- Oracle Certified Professional, Java SE
- Zend Certified PHP Engineer
- AWS Certified Solutions Architect – Associate

---

## Projects

- **E-commerce Platform Backend:** Led the backend development for a high-traffic e-commerce platform, improving response times and ensuring reliable transaction processing.
  - **API Gateway Implementation:** Designed and implemented an API gateway using Spring Boot, centralizing and securing access to microservices.
  - **Database Optimization:** Conducted a comprehensive database optimization project, reducing query times and improving overall system performance.
-
